THE FIRST STAGES OF THE BUILDING OF THE VAST HOOVER DAM: THE BLACK CANYON OF THE COLORADO Showing the Outlets of Three of the Four Huge Tunnels Which Will Divert the River Around the Scene of the Dam Construction.
(W. A. Davis.)

Every time you talk, every time you write, you tell an unforgettable story about yourself. Your English can help or can hurt you more than you may ever realize.

How to avoid Embarrassing MISTAKES in ENGLISH

EVERY day, every minute, you are engaged in an effort to make people think favorably of you. It makes no difference who you are or what your position is in the scheme of things, you want to advance, you want to step forward and higher. What you use most in this unceasing effort to establish and improve yourself is the English you speak and write. Every time you speak or set pen to paper you create either a favorable or an unfavorable impression of yourself upon others.

Polite society is a hard taskmaster. It does not permit the slightest relaxation of its rigid demands. One of its most important customs is the use of clear, concise, correct English. Above all is demanded correctness. It is very easy to fall into error, for English has acquired thousands of foreign words and phrases that make it a snare for the careless. Clothes and manners are veneers that may gain you some favor for a little time. But your language reveals you as in the searching glare of a calcium light.

How People Judge You

Those who do not know you intimately can judge you only by what you make them think you are.

The impression you make depends upon what you say and how you say it. If your English is poor, lifeless, honeycombed with mistakes in grammar, pronunciation, and diction, the very people upon whom you wish to make the most favorable impression will assume that you are lacking in culture and breeding. But if you

can speak English that is correct in every detail, it will be much easier for you to be at ease no matter where you are.

For that reason you very carefully correct any mistakes you discover in your conversation and your letters. But you probably are unconsciously making errors every day. These errors are the more dangerous because not only do they cause you to lose standing and create unfavorable impressions, but as you do not know what they are you go right on making them. Cultured people quickly recognize the slightest fault in English, and unless you are sure that your English is absolutely faultless, you will always be ill at ease and self-conscious.

If you would become fully successful you must stop making these errors. You must be sure that the English you use is correct. You can not hope to attain all your ambitions until you are able to show yourself in the best light at all times. It was long ago proved that the old system in vogue in schools was inadequate, for upon actual test it was found that the vast majority of men and women are only 61% efficient in their knowledge and use of English. For many years educational experts sought for some method that would overcome this deplorable condition. But no one ever devised an easy method of learning correct English until Sherwin Cody, who is perhaps the country's best known teacher of practical English, invented a remarkable method that enables any one to improve his English in only 15 minutes' study each day.

Mr. Cody's invention is so amazingly simple that it is practically automatic. It accomplishes the mastery of English with astonishing rapidity. It is called the 100% Self-Correcting Method.

A Remarkable Invention

This astonishing invention upsets all the ancient worn-out standards of teaching. The useless rules and hard-to-remember impractical definitions of the old system were so cumbersome and unwieldy that they actually retarded progress. Mr. Cody concentrates on the main essentials, and arranges them so that fifteen minutes of your time each day soon gives you as thorough a command of English as those who spend years to perfect their knowledge.

Mr. Cody's remarkable self-correcting device does away with every uninteresting and monotonous exercise characteristic of the old school. It is this device that has called forth the highest praise from the best educational experts. This device not only simplifies the whole study of English, not only makes Mr. Cody's course a pleasant game, but it so firmly fixes correct English in your mind that you never can forget it. It concentrates on your errors—it does not bother you about the things you positively know! That is the most wonderful thing about Mr. Cody's course. And once you have taught yourself to use perfect spelling, perfect diction, perfect pronunciation, and perfect grammar, you will always use them.

Free Booklet on English

A new booklet explaining Mr. Cody's remarkable method is ready. If you are ever embarrassed by mistakes in grammar, spelling, pronunciation, punctuation, or if you cannot instantly command the exact words with which to express your ideas, this new free booklet, "How You Can Master Good English—in 15 Minutes a Day," will prove a revelation to you. Send the coupon, or a letter or postal card now. SHERWIN CODY SCHOOL OF ENGLISH, 741 Searle Building, Rochester, N. Y.

Name.....

Address.....

This valuable booklet can not be sent to children.

Enjoyed Every Moment.

"I have enjoyed every moment I have spent on the method. It is fascinating." Mrs. Lula B. Cade, 900 S. Harvard Blvd., Los Angeles, Calif.

"The Best."

"Your method, the best I have ever followed, has really taught me to speak and write better English." Roy E. Treadaway, 111 Signal View St., N. Chattanooga, Chattanooga, Tenn.

Her Employer Pleased.

"I have found your course very beneficial; for any one in the business world who has not had the opportunity to receive the necessary education in English it certainly proves itself a very valuable help."

"When I mentioned to my employer that I was taking this course, he immediately looked to me as one upon whom he could depend to know correct English."

"I surely do recommend the course to any one." Mrs. Martha Ziska, 2460 Fairmount Blvd., Cleveland Heights, Ohio.

Fascinating—Rapid Progress.

"More fascinating than any other course I have ever studied. I saw improvement in my speaking in a very short time, also a very marked improvement in my letter writing." Mrs. A. E. Hilliard, 104 Oak St., Mason, Mich.

Great Improvement.

"I have enjoyed the lessons. Your method of teaching is a great improvement over the old system." Clement S. Slifer, 860 Sutter, San Francisco, Calif.

RESOLVE

TO READ
 The New York Times
 IN 1932

The coming year will be full of interesting, vitally important news: The course of business and finance, national politics; the World's Fair in Chicago; international affairs in the Far East, Europe and elsewhere. Complete, accurate news of these events will be demanded by every intelligent, progressive man or woman.

The New York Times in 1932, as in previous years, will give "all the news that's fit to print," completely, dependably and in an interesting manner. No other New York newspaper has the facilities possessed by The New York Times for obtaining first-hand information of important foreign news happenings and accurate, comprehensive news of New York City and the nation.

Resolve now to read The New York Times in 1932. A year's subscription for the Sunday edition will be sent to any address in the United States for \$5; \$15 for the daily and Sunday editions; \$10 for the weekday edition.

Make check or money order payable to—

Don't fool yourself—you can't win success in these times with the moss-covered theories of a bygone day. The old ideas just *won't work!* Regardless of what people say, follow the methods famous leaders have actually used—to gain wealth, popularity, personal power, prestige. A revolutionary new book, *Strategy in Handling People*, reveals the FACTS. 16 men read this book and doubled their incomes in 12 months. Many other average people report increased incomes, sudden advancements, new powers of accomplishment in daily life. Now you can get this book FREE—Prove in 5 days you can increase your earnings—or nothing to pay. Just mail the coupon below.

HERE, undoubtedly, is one of the most amazing books ever written! New, up-to-the-minute—already it is creating a sensation among business leaders, educators, financiers, average men and women from coast to coast. Everybody is talking about it. "Charter" members of "the old school" are in a furore about it. For like a bombshell it explodes all the set rules of getting ahead and reveals the bedrock truth of what really makes men succeed.

The minute you dip into this rule-shattering book you'll understand why it wields an almost uncanny influence over readers. You'll see why thrift, ambition, perseverance and honesty, in themselves, often avail nothing. They are not enough. Something more is needed. You'll see mystery surrounding the lives of the world's most outstanding men swept aside. And almost instantly you'll feel a new surge of power as you realize that you can follow the identical plan that made these men successful. Yet the book is sent FREE. Just give it only 5 days to prove what it can do for you.

Truly never before such a book! And now possible only through the untiring efforts of two men. The authors, Ewing T. Webb and John B. Morgan, Professor of Psychology at Northwestern University, spent years in collecting, sifting, weighing hitherto little known facts to make this volume a reality.

As a result of their findings, *Strategy in Handling People* brings before your eyes a message pulsating with life and hope. Not a dry-as-dust chronicle—but a vivid, exciting, true narrative absorbing as fiction! This book puts you on intimate terms with the great—relating actual private and public incidents that show the methods used by over two hundred of the world's most successful men. Giant figures like Elbert Gary, Henry Ford, Theodore Roosevelt, John D. Rockefeller, Andrew Carnegie, Charles M. Schwab and others. It literally "takes you behind the scenes" in the most crucial events of their lives—"spotlights" their activities, their trials, rebuffs, triumphs—and shows you exactly how each one wielded men and affairs to achieve his desires.

Perhaps this book will knock the props from under some favorite "tin god" of yours—but you'll agree it's worth it. For the information you gain can be priceless to you. When you learn how these leaders built up their reputations—how they sold, persuaded, froze out competition, pursued "dummy" motives,

bluffed outrageously and successfully for their own purposes—you realize that "work hard and save money" rules are not the *only* A, B, C's of life. And, most amazing of all, when you note that all these distinguished leaders followed almost the same identical strategy, your ambition gets a pleasant shock. For you see that here is the strategy you can use in everyday affairs to attain what your ability deserves. Don't you really want to increase your income—win more friends—have more of the luxuries and comforts of life? Science frankly states that nine out of ten people dissipate their energies in fruitless striving without results. As soon as you learn this *new way* to get ahead and discard the old "just keep trying" method, your chances for success may increase a hundredfold! And now this new way can be yours. It is simple to understand, easy to apply.

Many average men and women—not educated, not brilliant, but plain ordinary people—relate almost unbelievable results as a consequence of reading this startling book. "At thirty-three I was a shipping clerk," writes Harry Reich, of Milwaukee; "now a contact man, with salary doubled." William Keller, of Chicago, rose from an obscure clerkship to credit manager of a large concern. 16 men read this

book—later used its principles—and doubled their incomes in 12 months! Of course they practiced the fundamentals of industry, thrift and honesty, too. But they found a secret of success they had not used before. To these and to thousands of others life now takes on a new meaning, completely transformed for the better.

Now Mailed Free

The publishers of *Strategy in Handling People* are so confident that you will never be without this book once you have read even one page that they now offer, for a short time, to send it for 5 days' FREE use. No money now—merely mail the coupon. Do as men and women from every walk of life are doing—get this book! See for yourself why over 150 psychologists approve the plan of it—why men like Thomas Edison and William Wrigley, Jr., acclaim it—why it proved invaluable to these 16 men. There just MUST be something of tremendous value in this book for you. So, if at the end of 5 days you decide to keep it, send the publishers \$3 in full payment. Otherwise return it and it costs you nothing. Mail the coupon now while this offer is still open.
